

# Data sheet Product WLK 10

**WLK 5**

**WLK 10**

Accessories for electronic components>Thermal interface material>Thermally conductive adhesive thermally conductive, electrically not conductive

## Features

thermal conductivity:	<b>0.836 W/m·K</b>
specific thermal resistance:	<b>1.2 m·K/W</b>
hardening time:	<b>20°C approx. 16-24h / 25°C approx. 8 h / 120°C approx. 20 min</b>
volume resistance:	<b>10<sup>16</sup> Ω/cm</b>
temperature range:	<b>-56°C... +149°C</b>
glue layer:	<b>Epoxid</b>
mixture proportion:	<b>10:1</b>
composition:	<b>10 g resin/1 g hardener</b>
